

6 – 12 Month SQL Business Intelligence Specialist Internship

NETBI2811

PLEASE READ CAREFULLY BEFORE CONTINUING.

European Student Placement Agency, Ltd (ESPA UK) is a recruitment agency whose goal is to find high quality internships for European students in the UK. We work closely with our host companies to ensure the positions provide the candidates with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to be a registered student and/or have Erasmus+ status to be eligible for our internships. Any student who is unsure of their situation should check with their university before applying. Non-EU students can also apply if they are studying in the EU and can get an Erasmus+ grant/status for the entire length of the internship.

BENEFITS: All ESPA's services are **free** for students and alumni. The benefits are:

- 1) Paid Accommodation.
- 2) Paid Utility Bills (electricity, gas, water and council tax) + Internet Access
- 3) Commuter travel to work (accommodation will be found within an acceptable commuting distance from the workplace, if that requires more than a sensible walk then a bus/train ticket will be provided).

This will be sourced and managed on your behalf by ESPA. **These benefits have an approximate value of 700€-1000€ per month (depending on location).**

There is no salary over and above the benefits offered, unless specifically stated.

To know more, please visit: www.espauk.com

Extra benefits

As most of European grants are no longer than 6 months the host company has agreed to offer a grant subsidy payment in the second half of the internship (months 7 to the end) in addition to the regular benefits.

The Host Company

This company is an **independent IT consultancy business** providing advice on all aspects of IT to businesses in the UK, Ireland and across Europe. Formed in 1999, it **provides outsourced IT Management, Technical Support and Software Development services.**

Role

The host company is looking for an **open, trustworthy and professional candidate** who has the **passion for developing IT solutions**. The candidate will be assessing the opportunities to deploy Microsoft Business Intelligence technology including SQL, SharePoint and Reporting Services. They will collaborate on reporting specifications, by working closely with customers to identify requirements and build solutions. Moreover, they will get the chance to teach user research across the teams. The successful intern will have considerable learning resources at their disposal, as well as access to experienced technicians for support.

Duration

6 to 12 months (12 months preferable).

Location

Brighouse, extremely well placed town with links to other large towns such as Halifax and Huddersfield. Manchester and Leeds are just 30 minutes and 15 minutes away respectively.

Languages

Good written and spoken English. (B2/C1 minimum).

Start date

Flexible.

Tasks

In accordance with the current best practice guidelines, the candidate will be able to offer experience in more than one of these roles, with the aspiration to eventually master all of the following:

- **Create and maintain** the various **SQL Business Intelligence models** which support the business solutions.
- **Build** comprehensive **reporting solutions in SQL Server Reporting Services (SSRS)**.
- **Design & build** complex **OLAP models in SQL Server Analysis Services (SSAS)**.
- **Publication** of secure, intuitive **Dashboards and Reports** to the SharePoint Performance Point Services and SQL reporting server.
- Demonstrate **good customer service** with all the end users.
- Perform **ad-hoc analytical requests and research projects** assigned by management.
- Communicating effectively with the team, with developers and management.

Personal Skills

Essential:

- **Strong Database and SQL skills.**
- **Knowledge of business intelligence principals.**
- **Passion for developing IT solutions.**
- Outstanding **communication, organization, time management** and **interpersonal skills** with the ability to teach user research across teams.
- Strong **analytical skills.**
- Clear evidence of **attention to detail.**
- A **proactive approach** to a wide and rapidly changing workload.

Desirable:

- Experience conducting user research is a plus.
- .Net and C# skills are an advantage.
- Previous work experience is not essential but preferred.

How to apply

STEP 1) Please, register with us at <http://www.espauk.com/students/register-with-us>.

STEP 2) Please, send an email to apply@espauk.com with the reference code **NETBI2811** attaching your CV as a pdf file. A cover letter is always helpful.
