

Apply here

Start date

Flexible (within 3 months of August 2018)

Duration

6 months

Languages

Good spoken and written English levels are required (B2 onwards)

Location

Bristol, England

Bristol is the largest city in the South West of England. It has a strong reputation for creativity, digital innovation and social enterprise, and is the home of Oscar-winning Wallace and Gromit and urban artist Banksy. Offering a lively nightlife, bars and restaurants aplenty, musical diversity and many historical sites, in 2017, The Times newspaper voted it 'Best Place to Live in the UK'.

Are you eligible?

Are you a registered student?
Or

Are you eligible to participate in the Erasmus+ programme?

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for a computer science student to get hands on web development experience within this innovative Cyber Security Company. Mentored throughout by the Chief Technical Officer, you will assist enhancing the customer interface of the company's portal. The key here is to really focus on the end-user needs and make the portal accessible and understandable for non-technical audience. This company views this portal as their strategic tool to upscale rapidly and offer their cyber-security expertise on a global scale. This is a great chance to take ownership of a project and showcase your talents.

Tasks

- Helping the development of the new portal interface following an agile methodology.
- Helping the development of the Web-portal
- Working closely with the UX designer to map out the customer journey and construct user friendly dashboards
- Testing new implementation.

Personal Skills

- Confident and self-motivated team player eager to take on new challenges
- Experience with Angular UI development
- Experience with Typescript
- Comfortable using REST APIs
- Test Driven Development background desirable
- Linux experience a plus
- AWS experience a plus

The Host Company

This company is at the forefront of the cyber security solutions working with large international companies, mainly in the retail industry, as well as small to medium size organisations. Having just received funding, they are embarking on an aggressive growth plan to help companies worldwide understand what is happening in their networks and what risks they are exposed to. With an emphasis on user friendly informative interfaces, this host is dedicated to making cyber security easier and more manageable for businesses.
