Good spoken and written English levels are required (B2 onwards)

Location

Cheltenham England

Cheltenham is the most complete Regency Town in the UK. Located in Gloucestershire offers a fantastic mix of traditional and modern culture, not to mention their stylish places to eat, drink and stay. The town hosts several festivals, has many attractions, parks, theatres, museums and an abundance of culture and heritage to complement the modern-day leisure and nightlife scene.

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for a creative student with a passion for UX/UI to gain practical, hands on experience, with this cutting-edge company developing customer-centric solutions. Mentored throughout, you will assist the user experience professionals to design websites and software to delight end users. Collaborating with designers and developers you will be involved with planning, testing and observing users, analysis of data and reporting the findings. An internship with this host is guaranteed to be a great experience and boost to your future career prospects.

Tasks

- Define basic user experience concepts and components, support information architecture, planning website structure
- Sketching, wireframing and visual prototyping by following UX best practices
- Produce concept design and interface design
- Work closely with visual designers and web developers to ensure the UX is implemented as designed

Desired Skills

- Educational background in one of the following courses; human computer interaction, user experience, cognitive psychology, information science, technology of communications or similar
- Understanding of user-centred design principles and methodologies
- Familiar with tools and applications such as Sketch, Wireframing tools e.q. Balsamiq and Adobe Creative Suite
- Good communicator with good eye for details

The Host Company

This fast-growing creative agency offers a full range of digital services from digital transformation to website design and software development, allowing them to offer customers a complete solution. They design and develop websites and software for high-growth SMEs, ambitious start-ups, world-class educational institutions and global enterprises.
