Are you eligible to participate in the Erasmus+ programme?

### Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

## Role

This is an exciting opportunity for an innovative Web development student to gain practical experience, using your technical skills to develop and update the online presence of this host company. Mentored throughout and working closely with other designers and developers, you will assist in developing and redesigning the look and functionality of the website across all platforms. This is a great chance to showcase your skills and boost your career aspirations.

## Tasks

- Working on new websites and developing existing sites for our brands.
- Work alongside designers and developers to deliver flawless outcomes
- Making amendments to live, existing projects. This will vary from small changes e.g. changing website banners, right through to major changes & re-designs
- Working with employees in the host company to improve workflow and assist with project management

## Desired Skills

- Good knowledge of responsive web design and development.
- Proficient in HTML, CSS, HTML5 & Bootstrap
- Experience with Javascript, jQuery & AJAX
- Knowledge of the Adobe suite
- Shopify experience desirable
- Have great customer service skills, able to work well in a team and be self-sufficient when required
- Android APP development experience (Not essential but desirable)

## The Host Company

The host company is an award-winning organisation providing solutions to prevent nuisance and scam telephone calls to both businesses and homes. Their unique products are now sold in 12 countries worldwide including the USA, UK, Australia and France. With constant updates, they are always one step ahead in blocking the newest types of nuisance calls and the technology that the cold calling and scam calling industry is using. Going from strength to strength, they are targeting new countries to supply this invaluable product.
