

## Apply here

### Start date

Flexible within the next three months

### Duration

6 months

### Languages

Good spoken and written English levels are required (B2 onwards)

### Location

#### Bristol, England

Bristol is the largest city in the South West of England. It has a strong reputation for creativity, digital innovation and social enterprise, and is the home of Oscar-winning Wallace and Gromit and urban artist Banksy. Offering a lively nightlife, bars and restaurants aplenty, musical diversity and many historical sites, in 2017, The Times newspaper voted it 'Best Place to Live in the UK'.

Are you eligible?

Are you a registered student?

Or

Are you eligible to participate in the Erasmus+ programme?

### Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

## Role

This is a fantastic opportunity for an enthusiastic Business student who will be given the chance to take ownership of large data gathering and analysis projects aimed at taking the company to a new level. Mentored throughout within the online collections team, you will look at current data gathering and analysis processes to determine where changes can be made to improve the clarity that financial institutions have about consumers who use their services. This valuable insight is aimed at increasing customer numbers and more importantly improving retention rates. This project will give you valuable practical experience in process analysis and change, as well as a genuine opportunity to develop key management skills; a great addition to your CV and career prospects.

## Tasks

- Supporting online collections and quality checking results
- Collaborate with sales and project management teams in defining data collection and analysis requirements
- Execute processes using company tools to deliver projects for clients
- Strong focus on reviewing and documenting existing processes, specifying changes for improvement, working with development and project management teams to deliver changes through to completion
- Other general tasks as may be required by the company from time to time

## Personal Skills

- Strong analytical skills
- Strong attention to detail
- Good presentation skills
- Experience of SQL, Data Analytics, Visualisation or Process Improvement tools/techniques an advantage but not required

## The Host Company

This data analytics company specialises in the Insurance and Banking sectors. Over the last 14 years they have perfected the art of gathering insight so that organisations can understand their consumers and benchmark themselves against their competitors. This company is a total disrupter in its market with an innovative combination of panel capabilities and price collection in-house. Their clients are global and include banks, big insurers, brokers, aggregators, regulators and governing bodies. They were voted one of the UK's best companies to work for in 2015 and 2016.
