Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is an exciting opportunity for an enthusiastic engineer interested in product design and manufacturing. Mentored throughout, you will assist in using 3D modelling software to complete a library of product and component drawings. Additionally, you will form part of the New Product Development Team as we continue to expand our product portfolio. For the selected candidate this will be an invaluable experience for career and personal progression.

Tasks

- Support manufacturing by modelling products and machined components
- Provide drawings to production showing key dimensions and tolerances
- Assist with the development of an engineering/product database with agreed protocols
- Support new product development
- Ensure all company policies and procedures are adhered to; for example SOPs
- Identify areas for improvement and provide recommendations to management, support the implementation of continuous improvement initiatives aimed at developing a lean culture
- Take a proactive approach to anticipate barriers in achieving “Right first-time quality” and “Right first- time delivery” provide innovative solutions to management that overcome these barriers.

Desired Skills

- Studying for an appropriate engineering degree
- Good level of written and spoken English
- Excellent interpersonal skills
- Strong attention to detail and technical ability
- CAD and modelling design skills
- Ability to produce product and engineering drawings with dimensions and tolerances

The Host Company

This successful host company is a progressive and ambitious organisation that started as a humble family business and now sits as Northern Ireland’s largest supplier of kitchen, bathroom and bedroom cabinets, supplying tailor made cabinetry for some of the biggest names in the industry. The host is actively seeking talented individuals for a great learning and development experience.
