Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is an exciting role for a student keen to develop practical skills in Supply Chain Management, within this innovative award-winning company. Mentored throughout, you will assist the Quality and Supply Chain Manager with day to day duties and supply chain strategies within the operations department. For the selected candidate, this will be an invaluable supply chain experience in the manufacturing industry.

Tasks

- Assist in the continuing development of the ordering and stock control system
- Help develop a strategy for key component lines
- Ordering and stock control of raw materials and labels
- Maintain stock control to >90% accuracy, assisting with physical counts and product identification
- Develop KPI's and reporting
- Develop strategies and relationships with key suppliers
- Assist with ISO 9001 requirements as required

Desired Skills

- Studying for a degree in business, manufacturing management, logistics or other relevant
- An interest in manufacturing and supply chain activities
- Excellent spoken and written English skills
- A technical aptitude and or experience would be useful
- Good Microsoft Office knowledge
- Excellent communication and networking skills, telephone and face to face
- Ability to work on own initiative and with great organisational skills
- A flexible and hands on approach required

The Host Company

This award-winning host company has a turnover of £6 million, and manufacture premium plastic litter and recycling bins, agricultural products, materials handling products and highways street furniture using innovative manufacturing techniques. Constantly expanding, they are seeking a proactive individual to assist in this important part of the business. The company has hosted several successful ESPA internships.
