Start date

Flexible within next three months

Duration

6 months

Languages

Good spoken and written English levels are required (B2 onwards)

Location

[Oxford, England](#)

The city of Oxford rivals London when it comes to the title of “most known city” in the UK. This is because of its magnificent history and the presence of Oxford University, one of the most renowned universities in the entire world. Amazing medieval architecture blends well with the modern aspect of the city where you can eat, drink, shop, explore and have a great time.

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for an enthusiastic student, who would prefer a non-practical role to use their Life Sciences knowledge, to support this niche consultancy company. Mentored throughout, you will support Business Development and Marketing teams with bespoke project work for clients in the reagent manufacturing sector, using your technical knowledge and terminology to write scientific papers and conduct research. This role will give you a good insight into the business side of life sciences whilst adding a valuable skill to your CV.

Tasks

- Insightful report writing
- Industry white paper writing
- Digital and hard copy media scientific content writing
- Mergers and acquisition project work
- Exploratory work; technology, applications, desk research

Desired Skills

- Studying for a degree in Biological Science Degree such as Immunology, Cell Biology or other relevant
- A strong interest in the business side of the life sciences sector
- Outgoing with excellent verbal and written communication skills
- Proactive, able to work autonomously

The Host Company

This innovative host, formed in 2008, is a consultancy working specifically with research reagent manufactures; manufacturers of antibodies, proteins, ELISA / assay kits and tools for molecular biology. Their main objective is to assist companies in growing their brand and sales in this highly competitive market. They do this by supporting them at all stages of the business life cycle; creating business plans, facilitating corporate introductions, and giving advice during mergers and acquisitions. With their expertise they are able to make informed decisions when it comes to partnering companies for business opportunities.
