ESPA

Digital Analysis Internship (OPEDDA2711)

Start date
Flexible

Duration
6 months

Languages
Good spoken and written English levels are required (B2 onwards)

Location
Swindon, England
Swindon, now a large city, has its origin as a small market town known as the Old Town which is the cultural heart of Swindon. With its quiet courtyards and alleyways, you'll find restaurants and bars, live music and independent shops. It's also famous for its rail engineering heritage. The modern part of Swindon also enjoys eateries, bars and pubs and is a shopping oasis with a Designer Outlet village.
Swindon has a buzzing arts and music scene with many events taking place throughout the year at venues such as the Wyvern Theatre, Arts Centre and Swindon Museum and Art Gallery. With its well-supported choice of sport clubs and attractions, there are lots of things to see and do Swindon.

Are you eligible?
Are you a registered student?
Or
Are you eligible to participate in the Erasmus+ programme?

Benefits
See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a great opportunity for an enthusiastic data analyst, with a strong interest in financial services, to gain an invaluable experience within one of the UK's largest financial advice networks. Mentored throughout, you will work to provide the company with access to data required for performance assessment and the ability to make educated business decisions, as well as reporting trends and performance data to gauge progress and manage issues arising. Working for one of the largest financial players, this will be a great experience for both personal and professional development and a great addition to your CV.

Tasks

- Understanding customers' needs and identify business analysis trends
- Analysing and manipulating large data sets
- Providing management information analysis to customers
- Building predictive models using Python and/or R
- Supporting teams/departments with their reporting requirements.

Personal Skills

- Background in business or data analysis
- Strong Excel and SQL skills required
- Knowledge of R or Python required
- Power Bi a bonus but not essential
- Numerate, investigative and with an interest in financial products and services
- Experience of a customer focused, process and data driven environment
- Good eye for detail; able to work in a timely, accurate manner and team player

The Host Company

The host company is a financial advice network supporting over 2000 Financial Advisors across more than 600 business and generates more than £200 million in revenue for 300+ employees. To build on their success, they are introducing new strategies aimed at gaining key consumer insight making these exciting times for the future.
